We have been watching RFD TV for many years. This is the only channel that presents old country music and interviews with the performers. If RFD is taken off the air, there will be no Vincent and Daily, Larry's Home Diner and countless others that people enjoy. Rural America is alive and well. And so are seniors. Other groups have channels specific to their interests and this channel should remain for those who enjoy it. Over the years we have met many folks who are fans. Please let this channel continue to air its fine programming.
