I had been watching RFD-TV on Verizon when without good reason they cancelled it. I originally selected the programming we have with Verizon because of RFD-TV. We had renewed a 2yr contract with Verizon and RFD-TV was on the programming. Than without good reason we were told RFD-TV was going to be cancelled. E-mails were sent and calls were made to say that RFD-TV was my favorite programming but their minds were made up. Verizon executives did not seem to care about me, the consumer, or that the programming was included in my contract.
