I watch RFD-TV on Verizon FIOS. It is the only reason we signed up for a 2-year agreement in November of 2015. In December of 2015, FIOS dropped RFD-TV and I submitted a previous FCC complaint, which was closed with the comment that I would receive a letter from Verizon. I never received the letter and I am still stuck with Verizon until November of 2017 without RFD-TV.
