I watch RFD-TV on Directv. I am 31 years old and find great value in this family oriented and agricultural based independent tv network. It is the first channel in my favorites list and I regularly watch the country western music shows such as hee-haw etc. as well as equine shows for bettering my horsemanship as well as rodeos and other agricultural shows.

I switched from Charter to Directv with one reason being that I could get RFD-TV in the basic channel package without up charges to have access to this channel.

Please consider my comment and the many other rural folks who value this channel and the that may not be as technology savvy to enter a comment online.

Thanks for your consideration to allow RFD-TV to prosper in this great nation.
