

Dear

Dear FCC:

I have already sent a letter, but I'm afraid I did not meet all the requirements and it may not have counted.

We watch RFD TV on Direct TV and it is our main source of entertainment and information. We are farmers and senior citizens and wish to plead our cause...

PLEASE, PLEASE, PLEASE don't allow a few cable companies to limit our television programming. I feel we need representation as much or more than the urban areas... they may have more population, but this country can't run without agriculture.. which seems to escape the cable companies directors of programs. It is sad the separation that seems to be present on this issue.

Thank you.
