My elderly mother and I watch RFD-TV on DirecTV. It is her favorite channel. She especially enjoys the music programming. I enjoy being able to sit and watch wholesome programming with my mother without being embarrassed by foul language, nudity and sexual content that is so blatant on other stations. We are a many generation farm family and appreciate RFD-TV's dedication to families like ours. We don't want to be prevented from watching programming that speaks to us by others who don't understand. Thank you.
