I watch RFD-TV on DirecTV.

RFD-TV is good, wholesome entertainment. It is also a good agricultural -based program. It helps me to be more informed about farms in other parts of the world and helps me to be more knowledgeable on new techniques/information that I could use on my farm. RFD-TV helps to also inform the public about agriculture and other topics. My father also watches it a lot, without it he wouldn't watch TV.

Please keep this program on air.

Thank you.
