I watch RFD-TV ON direct tv network at home and dish TV AT THE FIRE STATION. It's a great network that shows great quality products that families can watch and enjoy. I would hate to see one of the only channels that you watch and not see nudity or bad language go away. My kids can't hardly turn the channel and not see bad things or hear bad language, but with RFD-TV you can. Please please don't take this one channel that actually is one of the few channels that is still godly and great!!!! Thanks. Dannye Frank
