I watch RFDTV quite often due to the coverage of all the programs it has to offer. I live in a rural community with farmers and horseman so the programs that RFD delivers is very important to me and we also have cable tv and we also pay monthly for this service and it should remain on the cable companies programs.

As a consumer who pays for these programs, I should have the right to say what I want to watch not what the cable companies want me to watch. I see some of the new programs and movies that are coming on tv and I wouldn't waste my time watching them.

I hope you listen to all the requests that coming to you and do something about these cable companies blocking these programs that I'm sure they don't watch but a lot of us do.

Thank you for your time and I hope that this doesn't fall on to the wayside.
