6.1 For any traffic originating with a third party Telecommunications Carrier and delivered by NT to Verizon: (a) NT shall pay Verizon the same amount that such third party Telecommunications Carrier would have been obligated to pay Verizon for termination of that traffic at the location the traffic is delivered to Verizon by NT; and, (b) if NT pays Verizon for termination of such traffic in accordance with Section 6.1(a), preceding, Verizon shall not bill the third party Telecommunications Carrier for termination of that traffic. This Section 6.1 does not apply to Four-Party Traffic that is subject to Section 6.2.

Neither the originating customer nor the terminating customer is an End User of Verizon. Subtending End Offices or their equivalent shall be determined in accordance with and as identified in the Local Exchange Routing Guide (LERG). 6.2.1.4 NT shall pay Verizon for Tandem Transit Traffic Service at the rates for Tandem Transit Traffic Service provided for in Exhibit 1, "Pricing Attachment for Tandem Transit Traffic Service and Four-Party Traffic Service," attached. The "Pricing Attachment for Tandem Transit Traffic Service and Four-Party Traffic Service" is hereby made a part of this Section 6.2.

6.2.3 Additional Provisions

6.2.3.1 The provisions in this Section 6.2.3 apply to Sections 6.2.1 and 6.2.2, above.

6.2.3.2 As used in this Section 6.2.3:

6.2.3.2.1 "Traffic" means and is comprised of "Tandem Transit Traffic" (as defined in Section 6.2.1) and "Four-Party Traffic" (as defined in Section 6.2.2).

6.2.3.2.2 "Receiving Carrier" means a Telecommunications Carrier to whom Verizon has transported Traffic that was delivered by NT to Verizon, as described in Section 6.2.1 or Section 6.2.2.

6.2.3.3 Traffic shall be routed over the interconnection trunks described in the Interconnection Agreement (including, but not limited to, in the Unitary Rate Amendment) for the delivery of Local Traffic to Verizon. NT shall deliver each call to Verizon's Tandem with Common Channel Signaling (CCS) and the appropriate Transactional Capabilities Application Part ("TCAP") message to facilitate full interoperability of CLASS Features and billing functions.
6.2.3.4 NT shall exercise commercially reasonable efforts (including, but not limited to, requesting assistance from a state regulatory commission, the Federal Communications Commission, or other appropriate government authorities) to promptly establish a reciprocal traffic exchange arrangement (either via written agreement or mutual tariffs) with every Receiving Carrier to which NT delivers Traffic through Verizon's Tandem. Such reciprocal traffic exchange arrangements shall provide for the Receiving Carrier to terminate or complete Traffic delivered by NT and to bill NT or another Telecommunications Carrier other than Verizon, and not to bill Verizon, for such Traffic. If Verizon believes that NT has not exercised commercially reasonable efforts to promptly establish such reciprocal traffic exchange arrangements, each Party may use the dispute resolution processes of the Interconnection Agreement.

6.2.3.5 Verizon shall not be liable for compensation to any Receiving Carrier or to NT or to any other person or entity for any Traffic that is transported through Verizon's Tandem, and Verizon reserves the right to assess to NT, and NT shall promptly pay to Verizon, any charges or costs any Receiving Carrier or other person or entity bills to, or imposes or levies on, Verizon for the delivery, transport or termination of such Traffic, including, but not limited to, any switched Exchange Access service charges. If Verizon is billed by any Receiving Carrier or other person or entity for any Traffic delivered by NT to Verizon, Verizon may provide notice to NT of such billing. Upon receipt of such notice, NT shall immediately cease sending to Verizon any Traffic going to such Receiving Carrier or other person or entity until Verizon provides written notice to NT that NT may resume sending to Verizon Traffic going to such Receiving Carrier or other person or entity (which Verizon will do upon receipt of a written certification signed by an authorized officer or agent of the Receiving Carrier or of the other person or entity, in form and substance acceptable to Verizon, that the Receiving Carrier or other person or entity has removed such billed charges from the bill the Receiving Carrier or other person or entity has submitted to Verizon and that the Receiving Carrier or other person or entity will not bill Verizon for any Traffic delivered by NT to Verizon).

6.2.3.6 If NT uses Verizon's network for Traffic volumes (total combined Tandem Transit Traffic and Four-Party Traffic
volumes) that exceed the CCS busy hour equivalent of 200,000 combined minutes of use per month (a DS1 equivalent) to the subtending End Office or its equivalent of a particular Receiving Carrier for any month (the "Threshold Level"), NT shall use good faith efforts to establish direct interconnection with such Receiving Carrier and reduce such Traffic volumes below the Threshold Level. If Verizon believes that NT has not exercised good faith efforts promptly to obtain such direct interconnection, each Party may attempt to resolve the dispute in accordance with the dispute resolution provisions of the Interconnection Agreement.

6.2.4 Traffic Delivered to Third-Party Telecommunications Carriers Connected to NT

6.2.4.1 Upon written request from Verizon, NT shall offer to Verizon service arrangements equivalent to or the same as the service arrangements provided by Verizon to NT pursuant to Sections 6.2.1 through 6.2.3 such that Verizon may terminate calls to a switch or its equivalent of a Telecommunications Carrier (e.g., CLEC, ILEC other than Verizon, other LEC, or Commercial Mobile Radio Service (CMRS) carrier), that subtends or interconnects with an NT switch or its equivalent ("Reciprocal Transit/Four-Party Traffic Service"). NT shall offer such Reciprocal Transit/Four-Party Traffic Service arrangements under the rates, terms and other provisions of a written amendment to the Interconnection Agreements that expressly references this Section 6.2.4. Such rates, terms and other provisions shall be no less favorable to Verizon than the rates, terms and other provisions set out in Sections 6.2.1 through 6.2.3, above, Exhibit 1, "Pricing Attachment for Tandem Transit Traffic Service and Four-Party Traffic Service," attached, and other applicable provisions of the Interconnection Agreements (including, but not limited to, the Unitary Rate Amendment). Verizon shall have the right to determine in its sole discretion whether it will enter into such a written amendment to the Interconnection Agreements and shall have no obligation to enter into such a written amendment to the Interconnection Agreements. An NT tariff shall not be deemed to be such a written amendment to the Interconnection Agreements.

6.2.4.2 Verizon may deliver to NT, and NT may accept from Verizon, traffic that is to be transported or delivered from NT to another Telecommunications Carrier only pursuant
to the rates, terms and other provisions of a written amendment to the Interconnection Agreements that has been entered into by Verizon and NT pursuant to Section 6.2.4.1, above. If such a written amendment to the Interconnection Agreements is not in effect (e.g., because Verizon and NT have not entered into such a written amendment to the Interconnection Agreements, or because such a written amendment to the Interconnection Agreements has expired): (a) Verizon shall not deliver to NT traffic that is to be transported or delivered from NT to another Telecommunications Carrier; (b) NT shall not accept from Verizon traffic that is to be transported or delivered from NT to another Telecommunications Carrier; and, (c) NT shall not bill Verizon, and Verizon shall have no obligation to pay NT, any charges for, or in connection with, (i) any traffic delivered by Verizon to NT that is transported or delivered from NT to another Telecommunications Carrier, or (ii) any services, facilities or other arrangements used in connection with such traffic.

6.2.5 General Provisions

6.2.5.1 Each Party may enter into a direct and reciprocal traffic exchange arrangement with any other Telecommunications Carrier. Neither Party shall take any actions to prevent the other Party from entering into a direct and reciprocal traffic exchange arrangement with any other Telecommunications Carrier.

6.2.5.2 If NT fails to comply with this Section 6.2, such failure shall be a material breach of a material provision of the Interconnection Agreements and Verizon may exercise any and all remedies under the Interconnection Agreements and Applicable Law for such breach. Without limiting the preceding sentence, if NT fails to comply with this Section 6.2, and such failure continues for thirty (30) days after written notice thereof from Verizon, Verizon may, by written notice to NT, (a) suspend the provision of any or all services under this Section 6.2, or (b) cancel the Interconnection Agreements and terminate the provision of all services under the Interconnection Agreements.

6.3 The following traffic shall not be included in the calculation of the Aggregated Traffic Ratio in Section (3)(a) above: (a) Local Traffic or ISP-Bound Traffic that originates with a third party Telecommunications Carrier, is routed through such third party Telecommunications Carrier's
own switch, and is handed off by NT to Verizon; and, (b) Local Traffic or ISP-Bound Traffic that Verizon hands off to NT for delivery to a third party Telecommunications Carrier and is routed through such third party Telecommunications Carrier's own switch.
