I watch RFD TV on Direct TV along with my children and grand children. Please help us to keep enjoying a Great Family Channel that is not only one of the very few great source's of Clean , Fun, family entertainment, but also one of the few channels that keeps us rural farm families informed about things that effect us everyday in life. There are so few channels on TV today that you never have to worry about what is on when the Kids are watching TV. So if you have any influence that will help us keep our RFD TV channel on the air please use it on the behalf of all us and our families who enjoy watching it. Thanks on behalf of my family and me..... Tom Standeford
