We watch it all the time - our favorite channel. The farm news gives a little extra information that is helpful for the farmer. It is grand to see all those tractors restored - posterity! Also, we live in a region that doesn't offer much in the polka music genre. We love all the music programs, Hee-Haw, etc. There is NO place in public TV that you can this type of programs. It shows life more like it really is, at least in our area. Thank you for allowing RFD to be in your list of "keepers".
