I watch RFDTV on channel 345 DirecTV. I enjoy the programming on RFD and watch it often with my family. We are a farm family and like the fact that RFD is gauged toward our lifestyle. We enjoy learning from the knowledgeable pros. that are on RFD. I know that my two brother in-laws and my father in-law also enjoy RFD. We are inundated with "reality shows" and other junk TV where you just don't know what is going to pop up on the screen next. Please don't take RFDTV off the air!! We need programming like this. The world is turning into a concrete jungle fast enough!!
