I watch RFD-TV, on Direct Tv Sattelite.

We prefer RFD TV channel ,over ALL conventional network, because of the descent true family oriented pleasurable entertainment.

Most channels available do NOT provide wholesome and family oriented programming appropriate for any age. RFD TV DOES provide pleasant down to earth, wholesome programming.

RFD TV provides a type of diverse and different programming not available on any other channel. The news, weather, commodity reports, western sports news and entertainment programming is very important to those who live in a rural area and a lifestyle that is completely different than those in an urban area.

We NEED and want access to the info and programming diversity that RFD TV provides.

Please continue to live up to the job that the FCC was created to do...provide access to programming that speaks a group of American population that would be underserved without RFD-TV.
