I watch RFDTV on Direct TV Ch 345.

My comments on Proceeding #16-41.

Although now retired I grew up in a farming community raising wheat and cattle. After living in cities for all my career I know that most people do not know where their food comes from. Milk does not come from a bottle and steaks are not born plastic wrapped. I believe it is imperative that the population have a choice and access to the knowledge that RFDTV provides. I still have need for the wheat prices and the weather information is the best available. My family truly enjoys the wholesome family entertainment provided by RFDTV.

Please maintain our public access to RFDTV.

Respectfully,

John C. Koch
