I would like to respond to proceeding number 16-41. I watch RFD-TV on Charter-Spectrum cable, and I feel Independent channels like RFD provide some of the best, most wholesome, family friendly programming available on all of television. To allow some of these large communications companies to squeeze out smaller independent channels would restrict valuable programming of all sorts, and leave us with only those large broadcasting networks that provide only trash for programming, and constant commercials for the sake of the almighty dollar. There is no other source for rural programming such as RFD-TV, and it's one of my personal favorite channels on all of television.
