Ladies and Gentlemen:

Hello. Please allow us to communicate our feelings to you at this critical time about RFD-TV's concern over "large urban-based cable companies" dropping or blocking their programming.

We live in a rural area of Frederick County, Virginia and have been enjoying RFD-TV for many years on DIRECTV. We can IDENTIFY with much of the programming because it reflects our HERITAGE. We intend to continue watching RFD-TV in the future.

Calvin's parents and sister live in the urban area of South Baltimore, Baltimore City, Maryland. Mom and Dad were born and raised in a rural area of Pocahontas County, West Virginia. They and Sister would LOVE to have the opportunity to enjoy the programming of RFD-TV too! The thing is that their cable provider, Comcast/Infinity, refuses to add RFD-TV to its cable line-up. To us, that DOES seem DISCRIMINATORY--that a rural-minority living in an urban-majority area is denied the option of viewing "rural, independent programming." Can't we ALL just enjoy some EQUALITY?...

We will close for now. Ladies and gentlemen, thank you very much for your time and attention on this matter and may Providence guide you in your work. We truly hope that you can see your way to rule in favor of RFD-TV/ We remain,

Very sincerely, and respectfully, yours

Calvin L Neighbors and Oneta A Neighbors
