Directv. I am being charged \$3.63 each month for two local sports TV channels. I do not watch nor want either channel. Directv says that the sports franchise directs them to charge this.

I went to Directv website Questions, and found out not everyone has to pay this charge.

How can a sports franchise direct them to charge a toll on people who do not want the service.

I feel that as a senior citizen on a set income, I should not have to subsidize Billionaire team owners.
