I watch AND THOROUGHLY ENJOY RFD-TV on DirecTV and hope to continue to do so in the future. Yes, I live in fly-over country where we merely provide food for the rest of the nation and I don't do anything essential like emote in front of a camera on cue or carry/throw and inflated pig bladder over a grass turf gridiron but I sincerely hope that this opinion in some small way matters. As a farmer I understand the adage farm with your head and not with your heart and that business is business. That being said I hope you will take some consideration of those of us in the rural community who have limited voice compared to the cities and continue to allow RFD-TV to remain on the air. Thank you.
