We are very disgusted that anyone would want to stop (remove) RFD-TV from the satellite TV. RFD-TV provides wholesome family entertainment. Honestly, there is so much trash on the TV that it's hard to watch. It's time for CEOs to wake up to the fact America needs decent, clean wholesome programming. We need to be thinking about kids and families & the future of our country. Please keep RFD-TV on. Please do what it takes to keep decent programming on. Thank you.
