Dish is our provider. We depend on RFD-TV for agricultural reports, financial, for info on farm machinery, crops and crop development, for hints on gardening, both large and small, for info on what other farmers are doing, for info on what the government is doing for all farmers, for info on national and state meetings, for all informative type programming dealing with agricultural, which is virtually almost NEVER available on any other channels. Besides CNN, we watch RFD!!! We enjoy all the Farm Bureau sponsored shows that are offered on RFD-TV. We enjoy the recipes and our favorite entertainment program is Texas Country Reporter, only available on RFD-TV. We can do without the old reruns of popular sitcoms, Roy Rogers, etc. We deeply appreciate the shows that inform us about our favorite topic besides politics these days, agriculture!!!! PLEASE CONSIDER RFD-TV BASIC, AS BASIC AS CNN!!!! DO NOT EVER CONSIDER DISCONTINUING THIS VITAL LINK WITH OUR IMPORTANT AGRICULTURAL WORLD!!!! THANK YOU!!!! Jill and Stan Jobe
