I watch RFD-TV on Dish satellite system. Please protect independent programming. The rural programs are very important to us. We are a farm/ranch family, we like the daily market reports for the cattle, hogs, grains and other commodities. We also enjoy the live cattle auctions broadcast on the Rural channel. RFD-TV and the Rural channel are very informative and educational for everyone. Please don't drop independent programming from your lineup. RFD-TV is America's most important network! Sincerely Jacob Martin, farmer/rancher, Dustin, Oklahoma
