I am very upset that Verizon took off the RFD channel. We signed up for Verizon cable a little over a year ago and one of the main reasons was it carried the RFD channel. I feel it was totally unfair of them to do this, in fact it is deceptive to lure you in based on a certain channel offering only to have them take it away for no good reason. I watch mainly for the music shows they had, shows that no other channel offers. I hope something can be done to restore RFD to Verizon. I plan to leave Verizon, but am still under contract for nearly one year. It's funny how I (the subscriber) needs to live up to an agreement, where Verizon can do anything they want. Sincerely, Gail Grandy
