We watch RFD on Direct TV. We watch RFD for good clean programs, no swearing or off color jokes or stories.

We like the Western sports, we don't care for any kind of ball games, not everyone likes ball games, no other channel has western sports.

For farmers and ranchers they can get market day reports, no other channel in our area has these reports.

We enjoy Gentle Giants and Larry's Country Diner. No other channel has programs like this.

The music programs are great and you can understand the words to the songs, modern music today on many channels, leaves us wondering what we just listen to .

There are shows on TV that should be removed, such as Party Down South and Naked these shows are not fit for any one to watch.

We can understand the people who have the power to make these decisions want to shut out so many people who live the country life style.

Without farmers and ranchers there super markets would be empty.

We thank you for your support and please help keep RFD on so viewers like us have a channel to support our country lifestyles.
