

60001567328.txt

I have been farming active church organist for practically all my life. We, husband and I are in our 80's. We live in a rural portion of Yorfb Co., Pennsylvania on a crop farm. We raise fruits, vegetables, berries and flowers, live an active farm life.

We have five children, all boys and grandson serving in the armed forces. I support our military family whole heartedly, my husband serving in the Korean conflict and give of his brothers in World War II.

That some of our background. My plea to you is to keep bringing RFD-TV to us country folks, well into the future. We probably watch that station 70% of our viewing time. A cleaner, patriotic station you will not find. Our carries network is Dish.

Why the big money networks are allowed to threaten and harass these small providers, is beyond our reasoning. Will you please stop this harassing now and into the future.

Your help is greatly appreciated.

Thank you very much.
