

Re: Proceeding #16-41 Comments Regarding RFD TV

I watch the **RFD-TV Channel** provided by Frontier Communications. I understand that my favorite channel is being squeezed out of the cable airwaves and I want to make sure that **RFD-TV** stays alive on cable for the following reasons. **RFD TV** is a thoroughly educational, rewarding, and enjoyable entertainment American television station that should be protected from extinction under the “Bill of Rights and the First Amendment”. It provides all around wholesome programming for the people of America who make up a wide portion of the demographics of our country. Examples of its excellent programming are: History of our great country, Blue Grass Music as well Country Music, weather broadcasts across the whole country, American Indian lore and history as well as ancestral information, Crop education for growing our country’s varied and types of products, Animal Husbandry, Rodeos, Cattle, Horse, Pig, Sheep, Chicken, etc. information, reports, auctions, teaching and advice for the raising of both crops and animals, planting schedules as well as costs and selling prices for farmers of America, 4H programs for our country’s children so that we have a constant flow of future farmers being raised to take over America’s farms. I am a city dweller from the East Coast who enjoys knowing how we are being taken care of by our farm and country dwellers. **THIS LAND IS YOUR LAND; THIS LAND IS MY LAND, FROM CALIFORNIA TO THE NEW YORK SKY LINE. THIS LAND WAS MADE FOR YOU AND ME. SO DON’T TAKE AWAY OUR RFD TV!!!!**

(Note: these Comments should have been the wording included in Confirmation #2016330312644 except that I messed up with that Comment Filing and a prayer got substituted instead.)
