We are Senior City folks had practically given up on TV. Got RFD, what a blessing! had to change TV Carrier to get it, best move we have made in some time. Love the country music, the nice family programs. The variety of shows and such good musician's, plus the weather, updated news, any thing one would need from tv. And the good musicians to name a few. Presley's Country Jubile, Jimmy Stur show, Branson on the Road, and the very personable Lady on midwest county Maggie Mae, no where could you go in the world and find any better musicians! or entertainers! and from such a variety of places. With RFD we can set in the pleasure of our living room and enjoy such wonderful programs. So good for seniors who can't get out much! Thank you FCC for listening & hope you will help keep RFD on all stations for city & rural folks to enjoy.  
Best Regards,  
The Stern Family
