Please do what you can to keep the independent programming available on TV for senior citizens, children, and everyone who appreciates the clean family oriented programs such as those on RFD-TV.

My husband and I are in our 80's and we enjoy many of the RFD-TV programs. So many of them are interesting and informative. We like the music shows like Texas Country Reporter, Somewhere West of Wall Street, Small Town Big Deal, Postcards from Nebraska, etc. I could name quite a few more. We watch probably 90% of RFD-TV as our TV time. We appreciate being able to watch TV without the smut that is becoming the NORM these days. Please think of those of us who love RFD-TV.

Thank you.

Jane C. Coppage

P.S - We changed our cable service to Dish so we could watch RFD-TV.

Some of our grandchildren watch the same shows as we do and we like discussing the things we learn with them.
