We find what Verizon is doing to RFD TV as distasteful and continues to reduce diverse programming choices with our Direct TV Vendor.

As New Yorkers who have moved to the Charlotte Metropolitan area, we enjoy the programming RFD TV provides. There is good variety along with practical and informative program selections helpful for daily living. Additionally, RFD TV provides a type of programming that most other channels do not offer. Since Verizon has created this incident, we have cancelled all our accounts with Verizon. Furthermore, we have encouraged our relatives, neighbors, and friends to consider the same.

It is a travesty in the entertainment business and programming media when conglomerates choose to "do away" with channels like RFD TV. An informative based channel such as RFD TV is an essential community need. Kindly, keep RFD-TV available to our Direct TV Vendor now and in the future. Sincerely, Marsden & Joyce Crosby
