

60001568245.txt

I have lived on a farm all of my life. My husband was a farmer, raised livestock and at one time we had two houses of laying chickens. We have enjoyed the programs carried on the RFDTV network. We also need information supplied by them.

We thin that you should support independent channels and not let the cable companies take over. Please continue to carry RFDTV.

Sincerely,  
Louise Dean
