I am writing you to ask you to be sensible and keep RFD-TV available for my family to view.

Larger companies still would have enough - just share with all of us rural farmers. Everytime we get one battle evened out - here is another.

There is space for everyone and I wish you would rule for all of us evenly. RFDTV has many types of programming we can not get on any other channels.

Our TV set is on most of the day. The information I get is valuable to our lives. I enjoy music, variety even polka dancing! I have 2 left feet but I love the music and friendliness of that show.

I would never be able to see that on any other TV.

I get RFDTV over channel 234 thru Direct TV. Please be fair to all of us.

Mrs. Rosemay Campbell
