Dear FCC, Watching you plead to stay on the air fire the dander up. This area on the border of Oregon and Idaho is a big Ag territory. Onion, potatoes, sugar beets, corn, hay and others . The county fairs are big deals. The community college has Ag classes, hosts college rodeos and our local radio stations play western and country music, stock reports etc. This is rural America!! And keeping up with markets, new equipment, new varieties is vital to all of us be it info or music or finding possible vacations or recipes. Fight hard to keep RFD TV on the air. Sincerely Ron & Connie Engle
