My husband and I watch RFDTV every day . We have dish and have hundreds of channels available to us. Unfortunately most of them are trash. We get tired of the sex, language and violence found on many of the channels and are very grateful for RFDTV and all the good, clean and entertaining shows found there. It is one of the few channels we can watch with our grandchildren and not have to worry about them seeing or hearing anything inappropriate. If we had more channels like RFDTV our country would be better off. Please continue with this great channel and bring in more like RFDTV and get rid of the smut channels. Thank you
