I am not an older person, but I very much appreciate the programming on RFD-TV and non-traditional stations. I specifically appreciate RFD for showing horse training classes. This meets a very wide audience and is not found on any other station. I also enjoy Hee-Haw, The Pressley Family, good old memories and clean entertainment.

I want the FCC to continue to allow non-traditional programming such as religious channels, local programming, and other shows that you cannot find on standard networks.

What happened to clean language and morality? I find that most channels carry more and more that do not meet the more traditional FCC requirements. I think what is allowed now is getting vile and inappropriate.

Please don't take away choices for clean living and rural, traditional values. Please meet ALL viewers needs.
