My husband being incarcerated in TDOC is tough already. We get occasional visits because of my job so the only thing we have are the phone calls. I even changed my number to a Nashville number so he could call locally. After all these years, the price increase is unbearable. We have figured it out to be more than a 200% increase. So now we get brief phone calls just to check on me where before we would talk the whole 30 minutes we were allowed. Who can afford the prices now? I pray that someone can and will look into this issue and make us understand the reason for such a drastic increase with inmate calls.

Thank you
Jody Miller
