To Whom it may concern,

We are avid viewers of RFD-TV on Dish network. We rely on this for pertinent information regarding many aspects of our agricultural business. From market reports, new information in crop management, and all areas of agricultural news. We farmers/ranchers, are working hard at feeding the United States of America, and people around the world. We appreciate RFD-TV continuing to air the programs it chooses to benefit us and countless others involved in food production. THANK YOU!!
