FCC 16-41

I'm a farmer age 77 and have been farming since I was 16.

It is great to have RFD television network. It is good to have a place to watch the Farm Markets and Weather each day.

Like Watching the tractor shows auctions, and Music Shows.

It is good that our urban neighbors can also watch farm related programing. It helps them to see how we as farmers produce theirs, and our food, and how the care of our animals is important to us.

Watch RFD and the Weather Channel on Directv network.

I'm writing to request that you don't take R.F.D. TV - Rural TV off the air. I live in Follansbee West Virginia and Have Blue Devil Cable. As far as I'm Concerned it is the best Channel on T.V. Family Contained and No Cussing in it. There's hardly anything on T.V. anymore worth watching let alone let your Children hear or see. Now I have a

RFD-TV is the most watched channel at our house from the music shows, machinery, old tractor parades, Gentle Giants (favorite). Also enjoy the FFA members, our younger generation, including the bull riding.

Please don't cancel this channel. It will be Greatly missed by us and many others I've talked to.

FCC,

We are farmers so this station is very important to us-

It gives weather - stock prices, all market prices concerning farmers + Ranchers.

It also has family entertainment such as music shows. Every thing about this channel is family friendly. Don't have to worry what your children are watching, Not like all the others [illegible] don't know where they get this stuff. When I was a girl you never saw such filth.

If it wasn't for farmers + Ranchers where would the United States be, or the rest of the World.

I'm asking you Keep this and other urban channels on.

Thank you,

Melissa Bailey

To whome it may Concern:

Please do whatever is necessary to keep rural channels such as RFD TV on the air. There are hundreds of channels, but only a few good rural channels.

I am a 73 year old retired farmer. I watch classic country music, Rodeo, equine programs, machinery programs and news on RFD. I watch RFD more hours in a week than all other channels combined.

Please help us keep our rural programming.

Thank You

I am protesting the Verizon FIOS TV for wanting to drop R2D- TV. Rural and Independent TV Stations.

We watch the R2D Stations MTV, and enjoy all the rural farm news along with other stations for the Seniors..

R2D. is a good family TV Station, and I have a large family with Seniors and young Farmers who like the rural independent TV shows.

Patrick Gottsch has fought for the middle class people and not for the big money Lobbyists in Washington. Thats what is wrong in America today.

C.E.O. Get off your butts and do your jobs for the people of America. For Rural & Independent.

Dear Sirs:

Please don't stop the RFD-TV. It's on almost continually at my house, except when I sleep. I love the horses, parades, & field work & machinery shows. I no longer farm but still live on my farm.

I love country music & all the jokes & stories. I grew up on the Grand Ole Opery.

Everything they have on their programs are interesting to me. I'm almost 92 years old (in May) so please keep RFD-TV available for people like me.

Sincerely
