The Honorable Tom Wheeler
Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

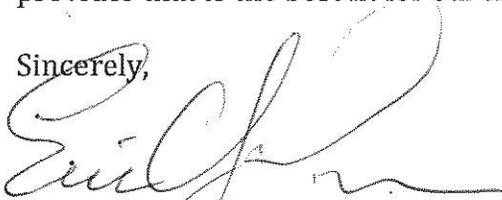

Re: GN Docket No. 13-5, Technology Transitions; GN Docket No. 12-353, AT&T
Petition to Launch a Proceeding Concerning the TDM-to-IP Transition; WC Docket
No. 05-25, Special Access for Price Cap Local Exchange Carriers.

Dear Chairman Wheeler:

I am Eric C. Johnson, Director of Technical Services at MOL-IT America. My group, is within the Liner Division of Mitsui OSK Lines a leading global shipping company. The group has numerous responsibilities in support of the Liner Division's mission. One of these responsibilities is to design, maintain and evolve the global network for the Liner Division and its 200+ locations around the world. We have chosen BT Americas as one of our two global network providers with Orange being the other.

We commend the FCC's efforts to provide customers with more choices for broadband service. Judge Harold Greene in 1982 set us on a path that not only opens competition in an equal manner but the decree wound up as one of the catalysts for the technology revolution. Choice and competition foster innovation, investment and lower prices. Technology continues to evolve while the transition of services will move to IP based solutions. We encourage you to protect the wholesale access market. By keeping the marketplace open for more competition, the FCC will help ensure that businesses like ours have the power to choose the broadband provider that is the best fit for our needs and growth.

Sincerely,

Eric C. Johnson, Director
MOL-IT America
