Mr. Wheeler, Time Warner cable are thieves to the customers I'm one of them you have one co ox cable going into my home and I have 3 services with TWC internet, telephone and cable. So the biggest cost is cable other two services are free because it's feed off of one co ox cable ripping off customer it's called fraud/scam. My cable bill went up \$25.00 so my bill is over 125.00 so Monday I'm taking my cable box back to Time Warner cable I can not afford cable and telling them to disconnect my phone so I won't have No phone. Many people across this country can not afford cable companies over charging cost and unlimited fees. So when it cable going to be more affordable?? TWC could care less me a customer and chart doesn't care either it's about greed. .
