Consumers should have the power to choose their own device. Competition will lower prices and increase access to new streaming content and diverse voices. Cable companies shouldn't be able to block what consumers see on their TV. We urge the FCC and Congress to Unlock The Box. It is UNBELIEVABLE that we have been forced to rent a piece of equipment, that could be purchased outright. All of our services and products cannot, and should not be restricted to a "rental" basis, that ties up the income of the average person so that even an increase in salary will not result in a net increase in available spendable cash. Being slaves to the "subscription services" of companies -- when in this case-- the device could have been bought outright-- only lowers, and restricts the possibilities of the average american worker. Let us buy our "cable delivery device boxes" Outright-- if we wish. Stop the growing obscene control and wealth of Cable companies.	EVERGREEN PARK	IL	60805

Consumers should have the power to choose their own device. Competition will lower prices and increase access to new streaming content and diverse voices. Cable companies shouldn't be able to block what consumers see on their TV. We urge the FCC and Congress to Unlock The Box. This is only a small part of the problem. Worse, we are forced to pay for programming we never watch. As an example, we pay for 2 or 3 stations advertising Shark Vacuums-100per cent advertising. The cable company benefits two ways-fees to me and I am sure Shark pays for the advertising. At the most I view 10 to 15 percent of the channels I pay for. No other business has such a license to steal.	WEST OLIVE	MI	49460

Robert	Owen	We have a few TVs and don't receive full service on all but one. This is crazy. American consumers pay an average of \$231 per year to rent a set top box from the cable monopolies. Norma	Debs	Not only is it keeping us consumers beholden to the cable companies, but remember when TV was free? My cable bill has risen tremendously over the years. My husband and I are retirees and will be forced to eliminate cable altogether. It's time to do something to force them to lower their bills to a reasonable price. I would like to see some young techies invent something to replace the cable boxes so we're not dependent on the cable companies for our home entertainment. . American consumers pay an average of \$231 per year to rent a set top box from the cable monopolies. This hurts competition, limits consumer choice, and lifts up cable profits. Richard	Gardiner	Comcast has a monopoly in our area north of Boston. As a result they are constantly dreaming up ways to overcharge and entrap customers. For example they started a package deal for people working out of their homes that is \$100+/- less than the standard package, which I have. Then when you want to transfer your account to this new package they you can't. If you want to economize and drop your ground line telephone they only reduce your monthly by \$2+/- If you try and move your account to another WEB carrier there are none in this area, so you are locked in and have to accept Comcast's tricks and overcharging - you have no choice except for a roof saucer, which my daughter, who owns the house, says it too ugly. Being 77 and only on Social Security I cannot afford Comcast's tricks. For the longest time they charged me rent for two boxes, even though I used only one. I finally got a repair man who was working on something else to disconnect the second box and take it back. There are a lot of seniors in this area who are being taken advantage of by Comcast. With the exception of rent, cable is the largest monthly cost I have to deal with. American consumers pay an average of \$231 per year to rent a set top box from the cable monopolies. This hurts competition, limits consumer choice, and lifts up cable profits. Consumers should have the power to choose their own device. Competition will lower prices and increase access to new streaming content and diverse voices. Cable companies shouldn't be able to block what consumers see on their TV. Frank	Wynne	Cable Box rental is total a rip-off of the consumer. The consumer buys a TV package from a cable provider. The cable provider then scrambles the signal that the consumer purchased. Consumer asks how will I receive the product I purchased. Cable company says no problem we will rent you a cheap decoder box made in China that will un-scramble the signal. Consumer then says to the cable company if you did not scramble the signal I paid for in the first place would I need a cable box? Crickets.....no response. The simple truth is the cable companies make a lot of money on these cheap decoder boxes made in China by creating a requirement for their use. With no notice Time Warner Cable arbitrarily raised by decoder box rental by 15% this year for a decoder box I've rented since 2009. I had choice but to pay the increase. In a nutshell the cable company sells you a product then makes that product inaccessible. The cable company says they will unlock that product if you pay a ransom fee that revolves every month till eternity with no price certainty other than upward. I urge the FCC to offer relief to the consumer from an unfair practice that serves no purpose other than enriching the cable combines. This practice has to stop and the FCC is the only agency that can protect the consumer.	LOUISVILLE	KY	40299

Cable companies shouldn't be able to block what consumers see on their TV. We urge the FCC and Congress to Unlock The Box.	LANSING	MI	48910
Margot	Zimmerman	Cable companies i.e., Time Warner, are raping us. We pay more for cable than any other utility company out there. Others don't even come close! It is disgusting what we have to pay just to watch television without any other choices. Seniors are on fixed incomes and the cable companies offer no discounts.. Even the utility companies offer discounts. I have seriously thought of giving up TV altogether. Could take a while to break the habit but, I think I could do it. for \$147.00 a month that goes out each month with expected hikes every year! What a joke.	OXNARD	CA	93035
henry	robards	American consumers pay an average of \$231 per year to rent a set top box from the cable monopolies. This hurts competition, limits consumer choice, and lifts up cable profits. Cable companies shouldn\t be able to block what consumers see on their TV. We urge the FCC and Congress to Unlock The Box. No where else is the consumer such a slave to a monopoly that requires one to buy all the channels they are profiting on. We usually watch only a handful of channels but have to pay for hundreds of others. Let us choose what we want to watch from a smorgasbord of channels, and let the weak, seldom watched channels live with the consequences. After all, isn\t this the essence of a free market economy?	EAST AMHERST	NY	14051

Ann	Whitford	American consumers pay an average of \$231 per year to rent a set top box from the cable monopolies. This hurts competition, limits consumer choice, and lifts up cable profits. Consumers should have the power to choose their own device. Competition will lower prices and increase access to new streaming content and diverse voices. Cable companies shouldn't be able to block what consumers see on their TV. We urge the FCC and Congress to Unlock The Box.	ANNANDALE	VA	22003
John	Massaro	I support efforts to #UnlockTheBox and cut costs for consumers. The cable box monopoly hurts innovation and makes it harder for Americans to watch they want. American consumers pay an average of \$231 per year to lease a cable box from cable monopolies. This hurts competition, limits consumer choice, and lifts up cable profits while holding back the future from American living rooms. Cable companies shouldn't be able to block what consumers see on their TV. We need more innovation and more diverse voices, and we urge the FCC and Congress to Unlock The Box.	HACKETTSTOWN	NJ	07840
Jean	Fisher	I support efforts to #UnlockTheBox and cut costs for consumers. The cable box monopoly hurts innovation and makes it harder for Americans to watch they want. American consumers pay an average of \$231 per year to lease a cable box from cable monopolies. This hurts competition, limits consumer choice, and lifts up cable profits while holding back the future from American living rooms. Cable companies shouldn't be able to block what consumers see on their TV. We need more innovation and more diverse voices, and we urge the FCC and Congress to Unlock The Box.	HULL	MA	02045
Brian	Loneragan	I support efforts to #UnlockTheBox and cut costs for consumers. The cable box monopoly hurts innovation and makes it harder for Americans to watch they want. American consumers pay an average of \$231 per year to lease a cable box from cable monopolies. This hurts competition, limits consumer choice, and lifts up cable profits while holding back the future from American living rooms. Cable companies shouldn't be able to block what consumers see on their TV. We need more innovation and more diverse voices, and we urge the FCC and Congress to Unlock The Box.	ALGONAC	MI	48001

Cliff	Crofford	I support efforts to #UnlockTheBox and cut costs for consumers. The cable box monopoly hurts innovation and makes it harder for Americans to control their entertainment costs. By limiting consumer device options, it solidifies a growing frustration with consumer choice and disproportional corporate profits empowered by legislation affected by lobbyists. We need to empower competition and innovation rather than legislatively embolden tacit monopolies. I urge the FCC and Congress to Unlock The Box.	NEWVILLE	PA	17241
Peggy	Giuffre	I support efforts to #UnlockTheBox and cut costs for consumers. The cable box monopoly hurts innovation and makes it harder for Americans to watch they want. American consumers pay an average of \$231 per year to lease a cable box from cable monopolies.
