I watch RFD-TV on Dish Network. It is one of our favorite channels ? and we only watch about a dozen because the rest of the channels, in our opinion, are a waste of time and of no benefit.

With all the other hundreds of channels, please at least leave informative RFD-TV on the air to give rural Americans something of value to learn from and enjoy. The other folks can have their many, many channels of game shows, empty talk hosts, and whatever else entertains THEM.

Don't be like the Grinch and take the last crumb of what most of America use to be ? rural folks, rural interests and rural values.
