Re: Support of RFD-TV
Proceeding No. 16-41

We watch RFD-TV on Dish Network in our area. The advent of RFD has been a delightful experience for us. I watch the auctions, farm equipment innovations wrought on the farm, draft horse shows, cattle programs & similar events. My wife likes the cooking shows, instuctional quilt programs and specialties. We both enjoy all the music & entertainment, particulaly Family Re-union.

We would be devastated to lose RFD.

Thank you, Graeme Reid.

toast with butter and jelly, cereal, milk and juice. Then when you put on your cotton whitey tighties, cotton socks, and genuine leather shoes, think about that wine + cheese you can enjoy later today. Don't be late for supper. Steak, baked potato, and salad are on the menu.

A farmer gets dirt in his eyes, mud on his boots, grease on his hands, and grass seed in his pockets. Thus.... some people call him a "hayseed." Remember, hayseed produces grass and hay that fed the beef that produced that steak.

Crops feed the millions of urban and rural folks. Lumber in houses protects and comforts the masses of rural and urban folks.

"NEWS FLASH" --- crops and trees (lumber) grow in soil, not in concrete.

I pray respectfully for you executives/CEOs at urban based media 'Giant' corporations. I pray you really think this through. Please don't strangulate the rural RFD TV life style. Please help the urban folks enjoy, appreciate, and understand all things that rural has to offer.

"Honorable FCC", please do all you can to stop this unfair practice of dropping RFD TV and other independent stations that were dropped by the powerful media 'Giants'.

Sincerely,
Dorothea J. Grady

Dear FCC: I am writing this letter in regards of the Big TV company's dropping RFD TV from their programs in # 16-41 proceedings. We are on Dish and at least 75% of the time we are on RFD TV. I was raised on a small farm so I see where our food comes from and how to take care of the soil, water, and air we use. Their are millions of city folks that do not know were the food they eat comes from or cares. If they saw shows like RFD TV and saw how food is raised they would have a better respect for the rural part of the USA. a big part of america grew from rural areas that feed everyone while urban grew too. more and more people are leaving the farms to raise the food we eat. education from shows like RFD TV would help everyone learn more about the USA and how things were for all of us.

The contents of this letter adresses the dropping of RFD TV and other independent stations by the urban based 'media Giants' corporations in Proceeding # 16-41.

I am Dorothea J. Grady - 401 W. 3rd St. - Cameron, Mo. 64429

We watch RFD TV on Dish Network, good service.

RFD TV does an outstanding job of offering wholesome, family-friendly programs. My favorites: country music shows, Gentle Giants, equestrian shows, rural news, American Heartland, California Bountiful, Texas Country Reporter to name a few.

I am retired; live in town; grew up in the country; and own a farm in North West, Missouri.

The following narrative is directed towards, (towards) the executives/CEOs of urban based 'media Giant' corporations who are dropping RFD TV and other independent stations.

CEOs/executives, before you go to your plush offices, please enjoy breakfast of ham and eggs,

Dear FCC:

We are writing to you to complain about Verizon TV service. We were customers of Verizon (Fios) which was our telephone, internet and TV service. Without any warning, we learned that Verizon was dropping RFD TV.

We really enjoy RFD TV due to the variety and family-friendly programs that are offered. In this day and age it is hard to find this quality of programming. When we contacted Verizon, we were told that there were similar programs available - which is not true.

We said we would like to drop our TV coverage and they said we could, however, there would only be a $7.00 difference in our monthly bill by dropping the TV service and we would have to pay $200 to break our contract with them.

We feel this is really unreasonable because we had no intention to drop Verizon until they dropped RFD TV. So in essence, they were offering us less service for the same monthly charge. The only way we could get out of paying the $200 charge would be to change our TV service to a basic plan. We could then contact Direct TV for the programming we desired in order to get RFD TV.

So this is what we have to do even though it is costing us more to have Verizon for our phone and internet plus the basic TV program and also to have Direct TV.

We appreciate any thing that can be done to stop this type of harassment.
Thank you.

Sincerely,

Harold & Phyllis Gossel

I watch RFDTV on Direct TV every day. I enjoy the following programs: Texas Country Reporter, Joey+Rory, Cumberland Highlanders, Gaither Gospel Hour, On the Road with Noble Outfitters, Mollie B. Polka Party, Larry's Country Diner, Marty Stuart, Penny Gilley, Rodeos, Tractor Shows and Farming Shows. These are real people you can relate to, nothing fake about them. RFDTV also keeps us up on the weather and news. I love the songs and music I see and hear on RFDTV. I am an 85 year old lady and don't know what I would do without it.

I'm writing to tell you how much this T.V. Station means to me. I pay extra for it. It cost me 10.00 a month, because it is not on my Dish Program. Why can't you Big City Cable Companies, And the FCC Just mind your own Business And let the Rural And Independent channels Alone? There are so many other channels you Coletd take off. I love watching my Horse Shows, with the little Britches Rodeo, the Music Shows, They have Tractor Pulls, I like watching shows about the old trains the History of tractor.
