The population of the United States needs Rural TV.

The farmers and ranchers learn about new products and good ideas from others to raise food.

Urban people need to know how & where their food comes from. City children & adults say they get their food from the super market - don't need farmers & ranchers - they believe food appears by magic on the store shelves.

It is magic - Put a seed in the ground, Care for it and you have vegetables, fruits and grains. Care for animals and you get meat. Some magic and a lot of hard work and long hours.

We get our TV from Venture Communications at Highmore, SD.

We love RFD. It's the best channel of all. There are so many good, interesting programs every day. Out in this rural area we like all of it - agriculture, educational, weather, news and especially the music. Molly B, Big Joe, Country Family Reunion, Hee Haw & we like the tractor shows + sales. The machinary have come along way from what we had. All of the old things are interesting to see.

We're 89 yrs., married 68 yrs. and can't drive anymore so we need RFD.

Keep RFD the best in the USA

Thanks,
Bill & Rita Kusser

FCC
C/O RFD-tv – 49 Music Sq. West, Nashville, Tn.

Dear Patrick,

Please tell the FCC that RFD tv is very important to keep on the Dish Network (which we use) and on the other networks as well. People across our land need to hear what rural people do for them. A very small percentage of people are feeding America and many people do not know from where their food comes. We watch RFD tv everyday. My husband (83yrs) and I (78yrs.) are still active farmers and have a cow herd and feed the calves out for market. We need the market shows along with the auctions. Also enjoy the entertainment shows. One we never miss is Orion Samuelson. He could be president of the U.S.A. and straighten out a lot of our Countries problems. If city people were to →

Dear FCC, 1641

I'm writing to inform you that my husband + I both in our mid-seventies Dish Net work recipients, enjoy RFD-TV immensely. Hope RFD-TV and the other independent channels will continue to stay on the air especially for the rural areas, we need educational + wholesome programs. We need this + if this is taken away its our freedom that gone to choose don't it?

Thank you for having the opportunity to voice my opinion.

To Pat Gottsch, a special thanks for all your doing + have done to promote good viewing on T.V. Ie hope you'll have the strength + courage to continue.

Sincerely,
Madeleine Augustine

Re: FCC decisions re: RFD TV
Document No. 16-41

To: FCC , document 16-41 regarding RFD TV which I watch on Direct TV.

To the executives with FCC who are responsible for the decisions being discussed at this time to terminate the RFD TV channel. I have been a constant viewer of RFD TV on Direct TV for most of the years it has been available to me. I enjoy watching the clean, educational, and informative programing. I am college educated and yes, I am a retiree. However, I still find RFD a great alternative to most of the other TV shows. I will not sit and waste my time watching programing on the other channels which I feel in many cases, "insults my intelligence"!! I love to learn about current events, government, business or financial subjects .

I also enjoy a variety of music shows, the rodeos, and I have learned so much about the issues that face a lot of middle class viewers of which I am one.

I feel so frustrated that a few of you at the FCC who know nothing about the rural life style and what we want are deciding for the majority of us that we do not have the right or the privilege of watching a rural channel that gives us wonderful programming and good CLEAN, EDUCATIONAL AND ENJOYABLE PROGRAMS. RFD CONTINUOUSLY HAS THE TOPICS, AND SHOWS THAT I CARE ABOUT AND I WANT RFD TO CONTINUE. OTHERWISE, I WILL NOT BE WATCHING TV!!!!!!

I hope that the FCC board making this decision will reconsider the very UNFAIR DECISIONS THAT YOU ARE MAKING.

THANK YOU,
Kathryn S Beran

Dear FCC -

RFD-TV

We are requesting you to please keep RFD-TV on the air, it is the only station that deals with rural issues for the young and the elderly.

Our grandkids so enjoy the programs on horse training and vet problems for care of their horses. Also the many rodeos we watch.

It is a one and only station that is wholesome enough for the whole family to watch.

Sincerely,

Howard and Arleata Bass

Dear Folks:

We are seniors in our 80's, still farming. RFD-TV is an excellent way to learn and relax and we are proud to show visitors the variety and quality of the programs. ☺

We have a U-Pick agritainment business and appreciate the help in teaching our city cousins about agriculture. We especially like references to God, family, FFA, 4-H, Farm Bureau, etc.

It is a crime in this decaying world to have RFD and other very important wide-endent programs eliminated in any areas. The filth on secular channels is awful and we can't respect those who produce such filth!!!

Please help our country go in a more positive direction! Eliminate this unjust discrimination!!! Keep RFD-TV and other good channels!!!

Sincerely yours,

Dear F.C.C. Proceeding No. 16-41

We watch R.F.D T.V. on Dish Network. We love this channel. It is wonderful programming. We never want to lose it. We watch it more than any other channel. I have an elderly sister in a Nursing Home which has Cable T.V. She cannot get R.F.D. and really misses it. Please don't ever take it away.

Thank You

RFD-TV FOR FCC 16-41

Not only are they trying to get rid of the Independants they are trying to eleminate the Seniors of this country from everything in the High Tech High Tech is not always good. We are in our 80's, still able to learn but at a slower pace than anyone has time for

We dropped Sirius when they took off the music we loved to listen to. Others must have also because in a couple months it was reinstated.

My hope is there is someone at the FCC old enough to realize what Verison is trying to do all for the love of Money Good luck, and God Bless

Don and Beth McCallie

Maybe if we took their food away from them for a month they would learn what Rural America is all about

Dear FCC,

I am writing about 16-41 - I watch RFD-TV to obtain the markets, as I am a livestock rancher.

Please do not let the big Cable Companies take away RFD-TV in all areas of America. Some people need to be educated on how their food is grown.

I live on a farm in Northwest Kansas with my wife. We receive RFD-TV from an independent provider Nextech TV out of Lenora, KS.

Some of my favorite programs include: "Texas Country Reporter," "I love Toy Trains", and "Red Steagall West of Wall Street."

This is a clean cut country network to allow others to learn about food and fiber products.

We all need to appreciate the role of agriculture as it provides safe, abundant and affordable products.

As a farmer/rancher I believe I am giving more to the world than I am taking from it. It is an honor and privilege to watch young life come into the world, as it is measured by what I have done for fellow man and woman. The country and Urban world needs to believe in their vocation, as others see this standard on RFD-TV.

Continue to keep this programming in all

Walks of life. Remember the agricultural world shapes our economy.

Dear F.F.C. members,

I don't live in the Rural area, but a small town in Pennsylvania.

The reason that I watch F.R.D. TV very much is that I like the country music that they play. Also I like seeing all the animals, Rodeo, and especially the Train Episodes which bring me back to the "Good old Days" as I am 82 years old. I will always cherish F.R.D TV for bringing Joey & Rory which was and still are my favorite singers. I hope and pray that you continue F.R.D TV!
