FCC Chairman of the Board

March 26, 2016

Dear Sir:

Our TV is turned to RFD-TV most of the time. We like the nation-wide weather. We like the estimates of crops and scarcities. We like the on-the-farm interviews and seeing some wide-open-spaces as well as facilities. And we sympathize with the farmer/rancher who is struggling with hard times - natural disasters.

We think it is wonderful that city folks - especially kids - can watch some of these programs and learn a little about where their food comes from. They may even realize what a gamble it is to grow food or raise animals for food. Do they realize that :

The farmers usually go into debt to buy seed, fertilizer, equipment, repairs & maintenance, fuel and then invest many hours of hard work. When the crop is harvested, they hope to sell it for enough to pay back the debt and pay themselves for the labor.

The ranchers also usually go into debt to buy animals, feed, buildings and fencing or cages. They, too, put in many hours caring for the animals. When the animals are ready to sell they hope the market is high enough so they, too, can pay their debts and pay themselves for the labor.

These lessons are important, If nobody wants to be a farmer or rancher, we will not have food in our stores. I believe the information on RFD-TV is extremely valuable and needs to be available to everybody. Please try to make that happen.

Thank you.

Sincerely,

Elodie Moore

Dear Sir:

We are writing to express to you our sincere feelings about RFD, our favorite channel. We have Directv and pay over $100. each month; many of the stations offered in our package do not interest us and we never watch them.

We are "country folks" in our seventies born and raised on small farms. We need RFD and we would be devastated if we were not able to watch RFD. We especially enjoy the music. "Our kind of music is seldom seen on other channels.

Our failing health does not permit us to travel or to enjoy a vacation. RFD provides our entertainment.

On behalf of many others who enjoy RFD as we do, we ask that RFD continues as a preferred choice for all of us.

Very truly yours,

The shows on RFD bring back fond

memories of life in earlier years, and the hosts + guests feel like family. The tractor shows are good as are Gaither Gospel Hour, Gentle Giants, and many more.

Please continue to support RFD and keep this unique programming on air.

Dear FCC 16-41

I care very much about being able to watch good, wholesome, TV programs, and R.F.D TV. provides this. I really enjoy the western shows, Roy Rodgers, the Lone Ranger. I do wish they would put on some Rex Allen movies also.

My husband and I enjoy the country music shows and the polish Hour.

I do wish they would put on Dr. Poll the vet from Michagan. Then I would not have to change channels.

I feel not a bit sorry for Verizon. Its company should be required to show a net work like R.F.D TV off of a channel.

DOCKET FILE COPY ORIGINAL

Verizon would be smarter to get rid of a lot of plain dirty shows on the air now. The language on a lot of these new shows, does not miss the dirt they are selling.

I was raised on a farm and had our own horses, cows and raised pigs.

So I enjoy these shows and some of the outdoor cooking shows also.

Well, I guess I've bent your ear long enough.

We also enjoy the nature shows. and we also enjoy the program that

2/

shows all the different tractors and machinery they repair and ones they make from scratch.

Well I shall say good bye now.

Sincerely,
Mrs. Helene Johnson

Dear Sir-Mam

I would strongly like to urge you to keep the R.F.D. network on the air.

With all of the trash that is being put out there these days it is refreshing to find a few networks that are family friendly, educational, and entertaining.

R.F.D is our go to network.!!

Dear FCC 16-41

We watch RFD-TV (through Direct TV) over 13 hours each week because it has family friendly shows. We enjoy so many of the old shows, music, horse shows and rural news.

We do not like the vulgar sit-coms and violent programs on the "big" channels.

Please do not let the independent channels like RFD-TV be blocked from the urban and rural areas. Everyone needs to be aware of how the farmers and ranchers provide the healthy, affordable food that we all love to eat.

Please give this your serious consideration.

Sincerely,
Charles & Wilma Elsass

We love RFD. We are very much against losing it! We live in Ormond Beach, Fl., Daytona Beach Area and becoming more "urbanized" every year.

We especially like the "Classic Country" shows, Country Family Reunion, Nashville on the Road, with Jim Ed Brown and Jerry Clower, Porter Wagoner, Cumberland Highlanders, Marty Stuart, and many other artists. We are 85 years old and both raised in Southern Indiana. I was raised ~~in~~ a farm with the Grand Ole Opry on a Saturday night. My Dad brought the car ~~battery~~ in the house to hook up the radio. (We had no electricity) These Classic Country Shows put faces to people I only knew on radio!

Joey, Rory, + Indiana have a beautiful love story with a sad ending. I feel like I know them personally.

You are doing a great job with clean, happy entertainment. You are not afraid to mention God and we also enjoy Bill Gaither. It's a pleasure to listen to "no filthy language" that seems to be all the rage on "Family"

TV programs on other stations.

Please, Keep up the good work, Keep these programs coming and any more that you can get! There's still, Waylon, Willie, Marty Robbins, and Merle Haggard that we haven't seen very much of!

Without RFD, I would be for dropping "Dish" and going to an antenna.

Sincerely yours,
Bill + Mourdyn Rapp
