to whoever!

I'm sick & tired of cable companies, blocking & dropping so many channels & programs, and put on "garbage" channels, shows, etc., and not what viewers are wanting to watch, as we have to pay the money to watch the programs, and should be what we want, not what they want to put on! Would like to see more western shows on RFD TV, like "Cheyenne", "Wells Fargo" "Lawman", "Roy Rogers", "Hopalong Cassidy", "Annie Oakley", "Laramie", "Cisco Kid", "Wyatt Earp" w/ Hugh O'Brien", "Cochise", and list goes on!

Eagle cable/Comm. use to air "KLKN"/ CBS, TV with BACKBONE, out of Lincoln, NE, and dropped it like hot potato, as they (KLKN TV) wanted more to air it supposedly! Was a lot of good Westerns on it!

So, what did they do, put on more garbage shows, talk, news, crap no one wants to watch! Take off alot of the garbage shows/programs/channels, and use money from dicking those, to put GRIT TV/KLRN back on, keep RFD TV, good old Western Channels!

Cable companies now charge $49.95 a month for "3" years & competing for that, but not Eagle Cable/Communication! If they can do that for "3" years, they can continue that past "3" years, instead of "Robbing" us viewers, raising monthly prices to $100.00 plus, and they choose what they want us to watch! But! We pay the bills, and out of all the channels Cable/Eagle has, alot of us watch on the average up to "10" channels only!

So, do keep RFD TV on, and air alot of westerns on it, and don't "fuck" up prices! Cable companies control what they

waste, me to watch! That's B.S.!

Then they take off movie channels, and don't put nothing on those dropped channels like "3" (WGN) and "57," plus, are GRIT TV / KXKN TV was on, and channels not on TV now. Quit screwing with TV shows/channels! RFD TV good channel, but like to see westerns again!

Mr. Gale Martens RFD TV viewer!

Dear FCC for the proceeding 1641

My name is Joan Adams. I watch RFD on Sidden Link # 376 out of Georgetown, Texas.
RFD is the best station for me. I don't like cussing and people that don't wear clothing. You have the best shows for older people that believe in God.
Please keep it for us.
The programs are the best.

Thank you
Joan Adams

The Honorable FCC Members
R.F.D.T.V. is very important to the Nations agriculture industry because of the wide variety of educational programs including crops, Machinery and Markets. Plus other informative programs for urban residents that have animals or gardening interests.
Also the clean family programing for evening & Night time viewing is very important to us!
We would appreciate you helping keep this available to us and the rest of the nation.

Sincerely
Charlene Howell

"Please" don't take R.F.D. off the air We are senior Citizens + love the music More than anything else. My husband has Dementia + he can't follow movies any More but all the music

DOCKET FILE COPY ORIGINAL

Dear FCC: Case 16-41

Please do not let them drop the RFD channel. I receive RFD via Cox Cable Co. I have a lot of channels on my TV, but I'm only interested in a hand full and RFD is my favorite.

I am not a farmer, you could call me a city slicker, but we all need to know where our food comes from. RFD is the only one that I know of that reminds us of that important subject.

I am 61 years old, but when I was a young man I worked for local farmers in Grant County Oklahoma. So I do have some back ground in farming. That's why I like to watch such shows as Classic Tractor Fever and Machinery Pete, also the country Music, railroading, Marty Stuart Show.

The RFD channel is a very needed and wholesome TV channel. We need more of this kind of intertainment in this World! So I pray for your helps for RFD TV channel.

Dam writing you For the expess purpose of voicing my opinions and those of Rural People, Farmers, Ranchers, Agribusiness of all kinds, And the Others who don't live the urban lifestyle. Small towns, and Cities all over this land live a much different ~~than~~ kind of life the the Big Bustling cyber Run, fast paced life of People in the Big Metropolitan area, and we deserve the kind of television programming that fits our lifestyle and the way we live. all our lives. RFD-TV and other rural TV channels are what we ~~view~~ because the news, entertainment, from Manufacturers

DOCKET FILE COPY ORIGINAL

Agribusiness Companies, Farm & Ranch Market reports, News of New Products Pertinent to Rural life and Country People, need to be in touch with. We don't need big city TV Executives or Power Broker's interfering with our Rural TV.

I travel this Country alot in an RV and (Most) a great Majority of the Senior Citizens absolutely think RFD TV and other Rural Networks are the absolute best TV on the air today. Many of these people live in big Cities, but were raised in the Rural Areas and watch RFD-TV, Rural Channels and don't want them fooled with By Modern thinking

TV Executives or other Urban athorities, Satlelite, Cable Co. etc.

There are a relatively few Big Metropolitan Cities in this great land with alot of people (some raised in the Country and still love the Rural programming. There are alot (many, many more that live in Small Cities and towns in this great land who depend, love and want RFD-TV type programming on their Cable Co's Satelites or other means of broadcast

Before I removed this huge group of Americans, Salt of the Earth, foundation of our Population The People who feed and Produce the lifeblood of this Nation, they need to educate themselves and not

discriminate, against Rural Programming.

RFD-TV especially is the best programming for senior citizens Rural families, even many who only events in life were forced to live in Big cities and love RFD-TV and rural programing.

Just because the younger generations are addicted to the cyber, Computer, Smart Phone, daily Technology Chane life, doesn't mean that the Vast millions of Country people need to swallow that mess. We are the foundation, salt of the earth, Providers of life sustenance of America our Message leave RFD-TV alone, and listen to the

Voices of Rural People we have earned the right to Rural Programming, no matter if we're still in the Great Outdoors in Gods Country or forced to live in one of the Concrete Jongles of this Land.

Please Help us
Keep the Way of Life
for Millions of us
that Big City People
think are behind Times
(We)ich is Exactly Where
I WANT TO BE

Fcc 1641 c/o RFDTV

To Who it MAY CONCERN:

Would you Please Keep RFD ON TV. I WATch RFD Just About All The Time. It is my MAIN CHANNel. If you TAKe it off I WAnt have Anything To watch. I WAnt even Need A T.V.

Please Keep RFD.

Please, Please, Please.

Dear Sir;

I just can't see that you don't leave us alone. Why do you keep hounding us as to drop the R & D channels. It is the most watched channel in our house hold. It has county music, it has old time music, it has markets. It also has the weather. It is a channel that has all of what a senior citizen would want. It is an old time age where we watch the products that a senior citizen can sit and relax. You see I am just fifteen years short of a hundred. My wife and I are both retired and we want to sit and watch a good show or program that is taped for our class of people. We are not happy with the amount of skin a lady cares to exspose. It is getting to most channels are trying to get to see how much flesh they can exspose in a half hour show.

I am a retired farmer. We farmed for forty years and the R & D channels interest. They have markets, they have the way we farmed in the years back. It brings back what we call the good old days. The channel brings back the memories of which a full set of machinery would cost about ten thousand dollars. This is what we call the good old days. Now days a set of machinery will cost in the neighborhood of a million dollars. We produced everything that a family needed to get by on a hundred twenty or a hundred sixty acres. Each farmer raised hogs for their meat. They had dairy for their milk. The had chickens which produced eggs. We had a large garden that produced their veggies. Whatever was produced in excess we sold or bartered so we could go to town to buy sugar, flour, coffee, and whatever we needed. A doctor appointment was $2.00. Today a doctor visit is $225.00 for fifteen minutes.

The music they play now is what makes our dog howl. We grew up in the days of the square dance, circle two step, Polka, Waltz. It is nice to set back and relax to the music. One of the Polka Bands that is on RFD now is a fellow who did chores for us when I was hospitalized. His daughter is the famous Molly Bee. Again the music which is played today would stop a clock or make our cats run to the other room. So don't drop the R & D channel. If need to be take the type that makes the mice leave the House. Leave us alone with our intertainment.

Sincerely Phil Krusen 210 1st Ave W Wauconma Ia 52171

To Whom It May Coneern:

I am the wife of a farmer and rancher and live in a rural area. I receive Direct✓ network. The RFD-TV Channel is a vital part of my personal viewing due to the fact that they offer both educational programs that inrich my everyday living. There is very limited programs offered on the television one can enjoy at older views can watch.

Please continue providing the RFD channel to all rural America throughout the entire country!

Respectfully,
Martha Browning
3810 Shiloh Rd
Midlothian Texas 76065

To whom it may concern:

Please, please, don't discontinue RFD, TV!! It is a much needed channel in this household!

With News, Weather, Markets and Good Old Country Music its a must have in this home!

Many Thanks
Sincerely,

To FCC commission committe,

As a frequent viewer of RFD T.V. I hope you won't allow Verizon or other large T.V. operators to remove rural T.V. stations and coddle to metropolitan populations.

R.F.D. television is about the only station I can watch that has so many programs I enjoy and offeDOCKET FILE COPY ORIGINALan entertainment.

~~It would be~~ nice if Verizon and some of the other large T.V. companies would provide viewers with more less violent and pornografic programing!

I'm a senior citizen and if Verizon pulls R.F.D and other decent programing off the air, I will consider dropping out of T.V. altogether.

Please do not allow the large monopliste companies to abandon their programing for the rural people and senior citizens of this country! It is no wonder at all the violence in this country with all the violent programing there is today!

Harold W. Benulson

March 23, 2016

Sirs!

I want to voice my support for RFD.

~~DOCKET FILE COPY ORIGINAL~~ It's right that big Cable Companies think they know more about what we should watch then we do. We all don't care for alot of what we have to pay for when we subscribe for cable. Then they decide to take away a channel like RFD, which we enjoy alot. We think it's time for the FCC to step in and do whatever can be done so we may keep this channel. Please help us to keep receiving RFD.

Thanks in advance,

Sincerely, Jo-Ann Graham

March 21, 2016

FCC,

We are writing to tell you how much we enjoy watching RFD TV.

The programs are wholesome and good to watch for the whole family.

We enjoy the country music and all the Rural American programs on RFDTV.

Please don't let the Urban Cable company take these programs off the Air. Thank You.

Sincerely,
