

My Comments:

- 1) Expand the current channels' hours from 50 to 87.5 hours.
- 2) Expand the channels covered to include all 5 broadcast networks (so including the CW) and 10 nonbroadcast networks.
- 3) Further proposes that should a cable channel drop out of the top 10 they would still need to continue providing description. This will ensure that programs continue to be provided Description regardless of the overall channel's performance.
- 4) Eliminate the requirement that a cable channel had to be available in 50% of households before being considered to offer Description.
- 5) Require channels to provide dedicated customer service reps for Description.
