To Whom is Concern with R.F.D.

It makes me madder every time I see where they want to Cut R.F.D from T.V. Cables.

Let me tell you what are we teaching our Children, adults with N.C.I.S- Murder shows- Men - women sleeping together, Changing mates- There are enough of this on the street-

The next generation needs to know how to produce crops to help feed people And of Course livestock to feed people.

The education of R.F.D is outstanding - farming. equip, livestock - the shows of the different states I am a Senior but the education is unread. All the music is wonderful-

DOCKET FILE COPY ORIGINAL

But not everyone likes the same music. So of course there are other Channel for that.

But the crime, I cant stand any of these ~~Rock~~ programs- I turn T.V. off

How many stations have markets, so farmer know where they stand for income-

Who would know about all the real horses. At the way from training Showing, riding them. Readeo's the Grand Cycle-Dale my dad just loved- They have some real training - Tell me what ever station have that- all the rodeo need credit for it

There are so many good things on R.F.D. - If it was to go off the Cables I probably would cancel T.V. altogether.

We have Direct TV, because they are one of the few that allowed us to have RFD, ~~Sports~~ Out Door channels, & Weather channel. I don't care much about some of the movies or comedy shows or murder mysteries. I like Western Country music, polka music, RFD rural news at 10:30 pm (central) & ~~tele~~ Country Reporter. I like to watch Deer hunting & fishing. I like Undercover Boss, Barnwood Builders, Treehouse masters And watching some movies on Hallmark and just watching news on my leg channels.

I'm almost 77 and a widower, so I don't watch scarey anything. There wouldn't be anything to watch if I couldn't get these other channels. Please leave it alone.

To whom it may concern:

RFD TV has wonderful Programming. We watch it on the DISH Network.

We are 80 year old retired farmers and mostly watch 2 RFD channels during the daytime and evening - both.

DOCKET FILE COPY ORIGINAL

All of the farm and news Programs - also the country music and old tyme bands.

We met dancing at age 25 - Married and are still dancing to Country and old-tyme Music at least once a week.

Please let us continue to Watch RFD-TV.

Im mrs Velda Harris I wrote you a while back. on closing the R.F.D.T.V. Channel station. I would like for the RFD TV. to stay on. Because I listen to it on the week ends. on Friday & Saturday's when the Blue grass bands on. also the grand old opry programs & others that come on that Chanel. Its all good music that you want to hear my time.

I also have friends, & sisters or brothers that watch it on the week end. I appreciate it. If you would not Close it down. I bought another package for my TV. just to get RFD on my TV. So I dont want to loose RFD. There not a lot of music programs that you get on T.V. Nothing like the Grand old opry & others that you can watch on RFD Channel.

Please let me know about the RFD. TV Channel if it will stay on or not.

also my Cable is suddenly [illegible] I see. They are very good to supply your needs.

Dear FCC,

16-41

I am 88 years old; a World War II Veteran serving in the Pacific on LST656; my wife is 90 years old and very frail; we watch a lot of programs on RFD/TV that we enjoy because we do not get out of our home very much due to our age. We would appreciate it much if you could put a stop to Verison and Companies like them wanting to take RFD/TV off the air; we probably do not have a lot of "years" left so let us enjoy them. Thank you in advance for any help you can give us.

Sincerely,

To Whom It May Concern:

One week after Verizon let KFD-TV go we switched to Dish. We are saving a bundle of money and have 294 channels including all we lost with Verizon. We couldn't be happier and no more hidden costs every month on our bill. They give less and charge more.

Re Re: Discontinuance of RFD-TV

To Whom It May Concern:

It is disturbing to all fans of RFD-TV that we are put in the situation of losing again. Our people have always supported the System of Dish get what they have the largest gift we could ever have and they say and then you say no to us.

Reconsider what you are doing. Stop and think. There are big words for us. Please let us have RFD-TV. We all plan to schedule around the best programs. We can watch Doctor Who, Bones, Jeans, weapons, killings and wars. Other stations are off limits.

KFD-TV has none of the programs I just deplored. Did we run out of television? If you don't appreciate the millions of people that use your stations for the Great Way of life!!!

NOT Murder!!!

These shows only cause the mental unbalance in today.

Please Keep KFD-TV!

Sincerely
Joan M. Hawk
Joan M. Hawk

P.S. When I was taught in the 1950's and we had no TV in our home and many, many non-residents also. There was less troubles around towns because people didn't see violence. Tell that is what everyone thrives on. KFD-TV doesn't have that quality for us. THINK IT OVER! Your programs are great for all.

Dear FCC,

My name is Wixdell Wright. I am 54 years old. I live in Thorshurst, PA. I watch RFDTV on DirecTV.

I began watching RFDTV three years ago. Up till then I had never heard of the channel, and only found it by channel surfing. It was pretty much love at first sight. (Hee Haw was on.)

I may not be a large farmer to feed the world; but my personal garden feeds my family; a world unto itself.

A few years ago, I lost my family. Friends in Thorshurst took me in. They are my family now, and the garden has been great therapy for me.

In watching RFDTV and shows like AgPhD, Corn College, Georgia Farm Monitor, and Market Day Report my personal garden has improved tremendously by the things I have learned. Now, not only does the garden feed us during growing season; but produces enough to freeze and can to help feed us during the Winter. Before, it was a one or the other situation.

DOCKET FILE COPY ORIGINAL

Through social media, I have gotten a few of my friends in Palm Springs, CA., Nashville, TN., Knoxville, TN., Pittsburgh, PA., Philadelphia, PA., and Scranton, PA., to watch RFDTV and several of it's shows. They have come to realize exactly what goes on in the Agriculture Industry. More of whats involved and what it takes to get food and clothing to our tables and closets.

I don't just watch RFDTV for the Agriculture perspective. As I said earlier I found Hee Haw while channel surfing. I still watch it. I also watch Hidden Heritage as I am half Apache. I love the Joey and Rory shows. (God help them at this time.) I love California Bountiful, Texas Country Reporter, Rural Evening News, and several other programs.

I know I said I watch RFDTV on DirecTV. But I know Verizon Fios dropped RFDTV and other programming is what I call an arrogant move on thier part.

If I can get a few friends, ~~to~~ who live in urban areas in the cities mentioned above, to watch RFDTV, and get an understanding of what is going on in the Agriculture Industry — How many can they get?

Please FCC – Do the right thing. Don't let other companies drop RFDTV out of arrogance as Verizon Fios. It is too important a channel for so many of us. Not just for agriculture but entertainment.

People may say RFDTV doesn't reach any-one in Urban areas. Well it must because Urban Farming, and Rooftop Farming are on the rise. as shown on Market Day Report. People in Urban areas ARE watching and learning.

The Rural Community IS giving back to the Urban Community; in many ways. Programming like RFDTV is a VITAL part of that giving.

Please FCC – I ask again – Do the right thing.

Sincerely,
Windell Wright

I first want you to know. I spent most of my youth in the country. I have spent all of my adult life in the country. This is my RFD 's line up every day. Cattleman to Cattleman, Rural News U.S. Farm Report, Tri. County Heritage, Cowboy Church Reporter, Farm Week. Weather

These shows tell me what the weather is all across the county. That tells me how the crops are going to be. wheat, alphalfa, strawberries, potatos, tomatoes, etc.

The other channels tell how our county was built, how the people lived & loves

How clothes were made
How shoes & Boots were made.
How the early saddles were Made
The start of mining began
also how we can feed our
