Re: Certification of Public Notice of Network Change under Rule 51.329(a)
CC Docket No. 96-98

Dear Ms. Dortch:

Pursuant to the notification requirements in §51.325 -- §51.335 of the Commission's rules, AT&T hereby submits this certification of Public Notice of Network Change. A description of the network change is provided below:

Number	Type of Change Planned	Location of Change
ATT20151028L.1 rev1	<p>This is the fourth revision to the long term network change notice ATT20151028L.1 for this project, which is also associated to NCNs ATT20150911S.3 & ATT20150911S.3 rev1. The reason for this second revision is the due date is not obtainable due to network freezes and AT&T is extending the window of implementation to 3rd and 4th quarter to meet these ASR obligations for carrier rehomeing. AT&T Southwest has developed a project with the plan to eliminate the Nortel DMS STPs in Abilene, Texas. This will require rehomeing all the SS7 linksets from the Abilene Nortel DMS STPs (ABLNTXOR04W/ABLNTXOW04W) into the Austin, Texas (AUSTTXGR57W/AUSTTXTE13W) Tekelec STPs. This change will consolidate STPs in LATA (550) to LATA (558).</p> <p>AT&T Southwest will be decommissioning the STPs in the AT&T Abilene, TX area. Carriers who connect with AT&T Southwest in the Abilene LATA (550) need to migrate their SS7 linksets. The NEW FSPOI codes are ABLNTXOR34W/ABLNTXOW19W. AT&T will transport the SS7 links from the FSPOI to the new STP location in LATA 558.</p> <p>Abilene - LATA-550 ABLNTXOR04W/ABLNTXOW04W Point Code - 249-050-000/249-051-000 - Alias 249-083-000</p> <p>Austin-LATA-558 AUSTTXGR57W/AUSTTXTE13W Point Code - 249-012-000/249-013-000 - Alias 249-151-251</p>	<p>Abilene, TX</p> <p>Austin, TX</p>

Public Notice: **can be obtained on the Internet at:**

<https://ebiznet.att.com/networkreg/>

Network Change:

This is the fourth revision to the long term network change notice **ATT20151028L.1** for this project, which is also associated to NCNs **ATT20150911S.3 & ATT20150911S.3 rev1**. The reason for this second revision is the due date is not obtainable due to network freezes and AT&T is extending the window of implementation to 3rd and 4th quarter to meet these ASR obligations for carrier rehomings. **AT&T Southwest** has developed a project with the plan to eliminate the Nortel DMS STPs in Abilene, Texas. This will require re-homing all the SS7 linksets from the Abilene Nortel DMS STPs (**ABLNTXOR04W/ABLNTXOW04W**) into the Austin, Texas (**AUSTTXGR57W/AUSTTXTE13W**) Tekelec STPs. This change will consolidate STPs in LATA (550) to LATA (558).

Description of Type of Changes Planned:

AT&T Southwest will be decommissioning the STPs in the AT&T Abilene, TX area. Carriers who connect with AT&T Southwest in the Abilene LATA (550) need to migrate their SS7 linksets. The NEW FSPOI codes are **ABLNTXOR34W/ABLNTXOW19W**. AT&T will transport the SS7 links from the FSPOI to the new STP location in LATA 558.

Abilene - LATA-550

ABLNTXOR04W/ABLNTXOW04W

Point Code - 249-050-000/249-051-000 - Alias 249-083-000

Austin-LATA-558

AUSTTXGR57W/AUSTTXTE13W

Point Code - 249-012-000/249-013-000 - Alias 249-151-251

Description of Reasonably Foreseeable Impact of the Planned Changes:

Carriers will need to move their SS7 links and must coordinate the activity with AT&T. AT&T will communicate more details with affected Carriers in 1st Quarter 2016. It is anticipated that Carriers will have to issue ASRs to connect to the FSPOI in the existing LATA (550) and that **Carriers will not have to transport their SS7 links any further than they presently do**. ASRs will need to be issued prior to the cutovers with the existing FSPOI, and the new Far End CLLI and Point Code. The Carriers will need a technician in their Central Office or STP during the maintenance window on the night of the cutover to make changes in the SS7 routing tables with the new set of point codes shown above.

Location of Change:

CLLI Code/Statewide	City	State	Implementation Date
From ABLNTXOR04W / ABLNTXOW04W	Abilene	TX	2nd Qtr. 2017
To AUSTTXGR57W / AUSTTXTE13W	Austin	TX	2nd Qtr. 2017
