I'm new at Sikeston School District R6. I've only been here 8 months. My school district was awarded Erate monies for a firewall for funding year 2015-2016. Funding Request number 2820907. We submitted our Form 472 and was denied because the invoice reference Provision Data Solutions and that didn't match the SPIN number (143026806). This vendor had a name changed and forgot to do their paperwork. The vendor informed us that the paperwork was updated in March 2016 and thus I filed an appeal as I was past the 120 days to file a new Form 472. I just received the denial for this appeal stating the vendor hadn't completed the paperwork. However when I look on line at http://www.sl.universalservice.org/Forms/SPIN_Contact_Search.asp and type in the spin number it shows the DBA is correct and matches my invoices. I'm not sure why my appeal with USAC was denied as the information seems correct when I look at it on their website. I hate to think my school district will be out money that was promised because the vendor didn't do their part originally.

Thanks!
