D. Brief Description of the Types of Service Affected

In the areas referenced above, Smart City Telecom provides the following services which will be discontinued (collectively, "Affected Services):

Busy Line Interrupt - An operator service allowing the operator to break into a conversation when a line is in use.

This discontinuance is limited to the Affected Services.

RE: Notice of Discontinuance of Operator Services

Dear Smart City Telecom Customer:

This letter is to inform you that on or after August 1, 2016, Smart City Telecom will no longer be providing certain operator services within the state of Florida. Customers who attempt to reach the discontinued services will be informed by the operator that the service is not available. Specifically, the following services will be discontinued.

Busy Line Verification – An operator service allowing the operator to confirm when a line is idle or in use.

Busy Line Interrupt - An operator service allowing the operator to break into a conversation when a line is in use.

This discontinuance is limited to the above operator services and will not affect your Smart City Telecom service in any other way.

The FCC will normally authorize this proposed discontinuance of service unless it is shown that customers would be unable to receive service or a reasonable substitute from another carrier or that the public convenience and necessity is otherwise adversely affected. If you wish to object, you should file your comments as soon as possible, but no later than 30 days after the Commission releases public notice of the proposed discontinuance. You may file your comments electronically through the FCC's Electronic Comment Filing System using the docket number established in the Commission's public notice for this proceeding, or you may address them to the Federal Communications Commission, Wireline Competition Bureau, Competition Policy Division, Washington, DC 20554, and include in your comments a reference to the §63.71 Application of Smart City Telecommunications LLC d/b/a Smart City Telecom. Comments should include specific information about the impact of this proposed discontinuance upon you or your company, including any inability to acquire reasonable substitute service.

Thank you for your business. We look forward to continuing to serve your communications needs.

If you have any questions about this notice or Smart City Telecom's discontinuance of Busy Line Verification and Busy Line Interrupt, please contact Smart City Telecom's Customer Service Department at (877) 553-2363.
